- Friction Matting
- Riser Pads
- DIAMOND PAK® with contoured edges
- Contour Pad
- Roll Chocks

FORESTRY & PAPER MILL

Transporting lumber and paper products safely and cost effectively demands reliable solutions and creative problem solving. Let our transit protection products and load securement expertise become your competitive edge.

Air Bags

Fills voids, braces loads, and absorbs impact and vibrations to protect cargo.

Strapping

AAR-approved, grade 4, non-metallic 1 1/4" strapping.

T-Hanger/Strap Hangers

Supports strapping for unitizing loads.

Friction Matting

Simple-to-use rubber friction matting replaces wood blocking and bracing.

Riser Pads

Staggers paper roll height and restricts individual roll movement.

Contour Pad

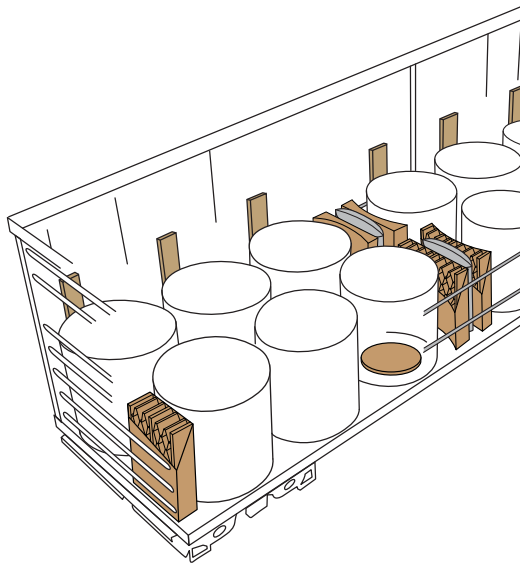

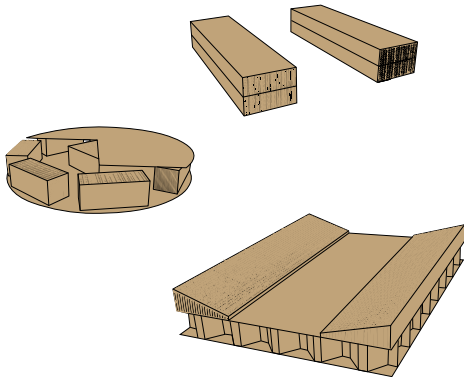

Used between air bag and roll to reduce unwinding.

Roll Chocks

Helps reduce roll movement.

DIAMOND-PAK® with contoured edges

Fills larger void space.
